“

To get real diversity of thought, you need to find the people who genuinely hold different views and invite them into the conversation.

”

– Adam Grant

“A value is a way of being or believing that we hold most important. Living into our values means that we do more than profess our values, we practice them. We walk our talk – we are clear about what we believe and hold important, and we take care that our intentions, words, thoughts, and behaviors align with those beliefs.”

– Brene Brown

“ Culture makes people understand each other better. And if they understand each other better in their soul, it is easier to overcome the economic and political barriers. But first they have to understand that their neighbor is, in the end, just like them, with the same problems, the same questions. ”

– Paulo Coelho

“ If we cannot disconnect, we cannot lead.
Creating the culture of burnout is opposite to
creating a culture of sustainable creativity. This is
something that needs to be taught. This mentality
needs to be introduced as a leadership and
performance-enhancing tool. ”

– Arianna Huffington

DO WORK THAT MATTERS

Every day, over 6,600 employees in Kansas City and New Mexico come together to do work that matters at the U.S. Department of Energy's Kansas City National Security Campus, managed by Honeywell FM&T. They're dedicated to supporting our national security mission by manufacturing sophisticated mechanical, electronic and engineered-material components.

The Department of Energy's Kansas City National Security Campus is managed and operated by Honeywell Federal Manufacturing & Technologies, LLC under contract number DE-NA0002839
